4:05 PM **Joshua**: When I think about that shit, I realize that Shaggy and his brother John weren't really doing anything bad by stealing all them books and CD's and shit. I mean, them stores got money, there big ass corporations. Who gives a fuck. They lose millions a year to theft, it's probably all calculated into the profits. But taking something from an individual is scantless. For example, if I stole a toaster from K-Mart that really ain?t shit. Nobody really suffers over that. If I stole YOUR toaster, that's wack. Cause you don?t get to have any toast tomorrow morning. That's a greedy and a heartless thing to do. I believe shit like that is evil.

4:06 PM What about the people that think your crazy?
I am crazy. I'm crazy fresh.

4:09 PM You think I'd give a fuck if a women's organization was protesting one of my shows? Hell no! I'd go out there and squeeze there asses! Then I'd say something like.. "Hey bitch, nice ass" or maybe something fresh like, "You got a name to go with them titties?"
very good wrath
